Toaster: All our buns are toasted in the same toaster. They all contain gluten, some contain sesame and some contain milk and egg. If you are allergic to any of these ingredients you are advised not to choose any of our sandwich products with a bun. Fryers: We have separate fryer vats for different products but they share an oil filtration system which creates a risk of cross-contamination when the oil passes through the filter. Broiler: This high temperature grilling device cooks all our beef patties and also our breakfast sausage patties. Bones: Although we take great care to remove bones from our meat, poultry and fish products some small bones may still be present.
